Booster_____

Is the camper in general good health and able to participate in all normal camp activities?

Yes_____ No_____ (if no please explain)_____

Your frankness about any physical or emotional disability will help Intergenerational Handbell Camp staff work more effectively with your child. Please notify the Intergenerational Handbell Camp director if the camper is exposed to any communicable disease during the three-week period prior to camp attendance. In signing this application, I hereby certify that the above information is correct and give permission for the release of medical records in case of illness or accident.

In case of medical emergency, I understand that every effort will be made to contact a parent or guardian of the camper. In the event I cannot be reached, I hereby give permission to the physician selected by the Intergenerational Handbell Camp director to hospitalize, secure proper treatment for, and to order injection, anesthesia, or surgery for the participant named below.

I give my child permission to participate in all camp activities including challenge course – both high ropes and low ropes appropriate to my child’s age as well as horseback riding and swimming. I understand that Heartland Center trains their staff and inspects their equipment and stock regularly to reduce risk. I understand there are still inherent risks with all camp activities. I release Heartland Center, all its employees and all Intergenerational Handbell Camp staff from any liability related to my child’s participation in camp activities. Participating in the challenge course may involve bending, twisting, lifting, running, jumping, climbing, increased heart or breath rates and physical contact with others. Unexpected strains or jolts to your body can occur. Under Missouri Law, an equine professional is not liable for an injury to or the death of a participant in equine activities resulting from the inherent risks of equine activities pursuant to the revised Statutes of Missouri.

I give permission for the Intergenerational Handbell Camp staff to administer the following over-the-counter drugs or their equivalent (in accordance with product labeling) to my son/daughter if deemed necessary by the Intergenerational Handbell Camp director: Children’s Tylenol, Children’s Pepto Bismol, Ibuprofen, Benadryl, Cough/Throat Spray, Eye Drops/Visine, and Swimmer’s Ear Drops.

I agree to allow my child (or myself) to have his/her picture taken and those pictures to be used in Intergenerational Handbell Camp publicity. My child agrees to follow all camp rules & expectations and I will arrange transportation home at any time for my child if camp director requires it due to behavior or illness.

Signature of Parent/Guardian_____ Date _____
